2. Primary charges	4
3. Special agreements.....	13

Introduction

Our Wholesale Charges document¹ sets out the charges that, in the absence of any contractual agreement, our Licensed Providers must pay for the services we provide in the course of carrying out our water and sewerage undertaker duties.

Ofwat's Wholesale Charging Rules require undertakers to publish their 2026-27 indicative wholesale charges no later than 13 October 2025.

This document sets out our Indicative Wholesale Charges for the charging year 2026–27.

These charges are based on the revenue allowances set in Ofwat's PR24 [Final Determination](#). Our PR24 settlement is currently being reviewed by the Competition and Markets Authority (CMA)². The outcome of this review may affect the level of wholesale charges for 2026-27. The CMA issued its provisional findings on 9 October – but there was insufficient time to take account of this in our indicative wholesale charges.

Our final Wholesale Charges for 2026-27 will be published by 13 January 2026. These charges will be updated to reflect the latest available information, including:

- the CMA's final conclusions on its PR24 redetermination (if this is published in sufficient time);
- the November CPIH figure that determines inflationary changes to charges in each year;
- Ofwat's final determination on its blind year adjustments; and
- any further information received through ongoing stakeholder engagement before their final approval by the Board.

The rest of this document sets out:

- Indicative primary wholesale charges; and
- Indicative wholesale special agreement information.

In the interests of transparency, we have also published Indicative Wholesale Charges using the standard wholesale schedule template¹.

For more information and support on next year's wholesale charges, please see our Statement of Significant Changes that has been published alongside this document.¹

¹ Published on our website here: <https://corporate.wessexwater.co.uk/our-performance/our-charges>

² <https://www.gov.uk/cma-cases/water-pr24-price-redeterminations>.

Primary charges

The following schedules set out Wessex Water's Indicative Wholesale Charges for 2026-27.

Table 1-1: Measured potable water

*Subject to a minimum annual charge of £20,000 and a one off sampling fee of £500 customers may elect to pay wastewater charges based on the actual strength of effluent discharged. In this case the volume charges will be those set out under R, V, B and S under Table 1-5: Trade effluent. This is known as the Optional Wastewater Tariff.
