Combined Supply Prices

Wessex Water has a single water resource zone. The table below illustrates Wessex Water's current and forecast resource position under peak conditions before any non-committed investment is made. This data originates from our water resource management plan.

Year	Resource position under peak conditions* (Ml/day)
2023-24	40
2024-25	43
2025-26	38
2026-27	39
2027-28	39
2028-29	40
2029-30	42
2030-31	43
2031-32	44
2032-33	45
2033-34	46
2034-35	47
2035-36	48
2036-37	49
2037-38	50
2038-39	51
2039-40	52
2040-41	52
2041-42	53
2042-43	53
2043-44	54
2044-45	54

*in water resource zones without the introduction of the licensee's water or any investment by Wessex Water that is not already under construction and over 50% committed.
