Wessex Water Services Ltd
2024-25 Indicative Wholesale Charges

Introduction

Our Wholesale Charges document¹ sets out the charges that, in the absence of any contractual agreement, our Licensed Providers must pay for the services we provide in the course of carrying out our water and sewerage undertaker duties.

Ofwat's Wholesale Charging Rules, published in October 2021, requires undertakers to publish their 2024-25 Indicative wholesale charges no later than 13 October 2023.

This document sets out our Indicative Wholesale Charges for 2024-25.

Indicative charges were reviewed by the Board of Directors in September 2023 based on the best information at the time. We will publish our final Wholesale Charges for 2024-25 by 13 January 2024. Our final Wholesale Charges will be updated to reflect the latest available information, including November CPIH and any information received through ongoing stakeholder engagement before their final approval by the Board.

This document sets out:

- Indicative primary charges;
- Indicative wholesale special agreement information; and
- Indicative non-primary charges.

In the interests of transparency, we have also published Indicative Wholesale Charges using the standard wholesale schedule template¹.

Bill increases are forecast to be significant in 2024-25. Please see our statement of significant changes for wholesale charges for more information and support¹.

¹ Published on our website here: <https://corporate.wessexwater.co.uk/our-performance/our-charges>

Primary charges

The following schedules set out Wessex Water's Indicative Wholesale Charges for 2024-25.

Measured potable water

<u>Description</u>	<u>Unit</u>	<u>Charge</u>	<u>CMOS Tariff Code</u>	<u>CMOS Tariff Name</u>	<u>CMOS Charge</u>	
					<u>Element</u>	<u>CMOS Charge Element Name</u>
Meter size <25mm	£/annum	5	W-M-Std	Standard Measured	D7101	Metered Potable Water Meter Fixed Charges

Additional Information**Definitions of standard and non-standard activities**

Description
Standard All of the charges listed as standard (including those that are listed as standard not requiring infrastructure modifications) are for requests that not classified as requiring infrastructure modifications or as non-standard and are a fixed charge.
Standard requiring infrastructure modifications If a request requires any excavation or modification of an existing asset or any apparatus associated to its operation or installation, where specified the charge payable will be the charge with modification of infrastructure costs.
Non-standard A quote will be provided for all requests classified as non-standard. Requests that include one or more of the following will be classified as non-standard: <ul style="list-style-type: none"> - where the meter size is 30mm or greater - requiring a road closure - requiring notifications to third parties in advance of commencement of works - requiring warrants for access - for flow data that require a site visit to obtain - where an additional charge is required for infrastructure (extra network demand) - any activity not listed which requires disproportionate effort on the part of the wholesaler

Methodology for quote-based charges**Description**

Where the non-primary charge is based on a quote, the calculated charge is based upon a standard cost and anything non-standard added separately. The charge takes account of the following items:

- labour
- plant
- materials
- road closure and highway disruption
- serving notices
- obtaining warrants

Abortive visits**Description**

The Retailer is responsible for ensuring the company has the required access to the Non-Household Premises in order to carry out the works. The abortive visit charge will apply in this case.
